# Pranjali S.

Information Technology  
Columbus, Ohio Metropolitan Area

## Summary

I have honed a diverse skill set that encompasses various facets of network security and protocol analysis. Throughout my tenure, I've delved into the intricacies of configuring subnetting with IPv4 addresses, adeptly navigating the transition to IPv6, and conducting rigorous testing to compare network performance. Additionally, I've explored core TCP/IP protocols like TCP and UDP, employing network packet analyzers to dissect packet-level communication and gain valuable insights into network dynamics. Through these experiences, I've cultivated a robust understanding of cybersecurity fundamentals, coupled with a hands-on approach that fuels my passion for tackling complex challenges in the field.
